

**QUALITY MANAGEMENT SYSTEM
POLICY STATEMENT OF
AGCHEM AFRICA (PTY) LTD**

Vision

Agchem Africa will provide quality chemicals through expert product development, optimised manufacturing practices and well-controlled quality practices.

Mission

Agchem Africa is committed to maintain and develop its leading role in formulating and manufacturing innovative agrochemical products of consistent high quality for the local and international markets.

In doing so, we employ the latest technological advances – with due regard to environmental safety and quality – to ensure that the value is added to our products and the business of our clients.

Our business ethic centres on honesty, transparency, and an ability to adapt to ongoing changes in our clients' needs.

We will meet or exceed our customers' expectations by continuously improving our processes, products and services carried out by fully qualified and trained people while treating customers with the necessary respect, courtesy, professionalism, efficiency and friendliness.

Responsible Care

We Acknowledge that it is the duty of our organisation to act responsibly in limiting impact of our operational units upon the environment and surrounding communities, by active commitment to guiding principles of Responsible Care.

C. Meyer
Managing Director
