SHAKE WELL Shake well before use • Store at room temperature
Keep out of direct sunlight • Keep container closed when not in use

LIQUID FORMULATION CONTAINING SELECTED RHIZOBACTERIA STRAINS

WARNINGS:

- Store in a cool, dry place
- Do not store near pesticides
- Keep out of reach of children, uninformed persons and animals.
- Wash hands with soap and water after handling this product.

DIRECTIONS FOR USE: USE ONLY AS DIRECTED.

- This product should be used as part of a balanced soil fertility and crop production program.
- The dosage rates in the table below are to be used as a guide only. The application rate is determined by soil fertility, as well as soil and crop type.
- Do not leave the product in the sun when not using. These are living organisms and are sensitive to sunlight.
- Do not use the product after the expiry date.

CROP	RATE PER HECTARE	REMARKS
Wheat	1– 16 ℓ / ha	Apply first application post harvest, prior flowering. Repeat 7 days after 100 % petal drop. Apply the last application before November drop.
	In-furrow application: 8 ℓ / ha	Pre-mix product with water before adding to application tank. Ensure thorough agitation. Apply in 25-250 ℓ of water per hectare
	Seed treatment: 4-8 ℓ / ton seed	Apply directly to seed. Can be diluted on a one to one ratio with water. Water volume is determined by product and seed type.
