

## SAFETY DATA SHEET

### 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** COPSTAR 120 SC

**Other identifier:** COPSTAR 120 SC

**Recommended use:** Fungicide

**Restrictions on use:** Agriculture

**Supplier** **Rolfes Agri (Pty) Ltd**  
288 Mundt Street  
Waltloo

Pretoria, South Africa

**Telephone:** +27(0)12 803 0145

**E-mail Address:** [info@rolfesagri.co.za](mailto:info@rolfesagri.co.za)

**Emergency Phone Numbers:**

**Office hour poisoning helpline**

Rolfes Agri (Pty) Ltd +27 (12) 803 0145

**Spill Response and Transport Incidents**

Spill Tech, 086 100 0366, [www.spilltech.co.za](http://www.spilltech.co.za)

Oil and chemical pollution control 083 253 6618

### 2. HAZARDS IDENTIFICATION

GHS classification and labelling of chemicals and the Regulations for Hazardous Chemical Agents - 2021.

Hazard class	Hazard category	H-statement
<b>Health Hazards</b>		
Skin Irritation	Category 3	H316
Serious Eye Damage	Category 1	H318
Acute Toxicity – Inhalation	Category 4	H332
<b>Environmental Hazards</b>		
Hazardous to the Aquatic Environment – Short-Term (Acute) Hazard	Category 1	H400
Hazardous to the Aquatic Environment – Long-Term (Chronic) Hazard	Category 1	H410

**The most important adverse effects:**

**Physiochemical effects:** None known.

**Human health effects:**

Causes mild skin irritation (Skin.Irrit.3)

Causes serious eye damage (Eye. Dam.1)

Harmful if inhaled (Acute Tox. 4)

**Pictograms:**

**Signal word:** Danger.

**Hazard statements:**

H316: Causes mild skin irritation.

H318: Causes serious eye damage.

H332: Harmful if inhaled.

H400: Very toxic to aquatic life.

H410: Very toxic to aquatic life with long-lasting effects.

**Precautionary statements:**

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P103: Read carefully and follow all instructions.

P261: Avoid breathing dust/fumes/gas/mist/vapours/spray.

P264+P265: Wash hands and affected area thoroughly after handling. Do not touch eyes.

P271: Use only outdoors or in a well-ventilated area.

P273: Avoid release to the environment.

P280: Wear eye protection/face protection.

P304 + P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305 + P354 + P338: IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P332 + P317: If skin irritation occurs: Get medical help.

P391: Collect spillage.

P501: Empty all pesticides from the container by placing it upside down over the spray tank and holding it there for at least 30 seconds. Puncture the rinsed container to render it useless and send to a recycler.

**Special labelling of certain mixtures:**

None known.

**Other hazards:**

None known.

**Toxicity:**

Classification according to GHS: Category 4

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

**Ingredients with Hazard Concerns (GHS):** According to UN GHS criteria

Hazardous Component	CAS Number	Conc. (m/v) %	GHS Classification
Copper Hydroxide 60%	20427-59-2	<20%	Acute Tox. 4 (H302) Eye Dam. 1 (H318) Acute Tox. 2 (H330) Aquatic Acute 1 (H400) Aquatic Chronic 1 (H410)
Polycarboxylate Polymer	27599-56-0	<10%	Skin Irrit. 2 (H315)

#### 4. FIRST AID MEASURES

**General Advice:** The symptoms resulting from direct exposure to the product could appear a while after exposure. If there is persistent discomfort, seek medical attention. Provide this SDS to medical personnel for treatment. Immediately remove contaminated clothing and remove the affected person from the contamination area. Keep the person warm, calm, and covered up. First Aid personnel should pay attention to their own safety.

**Eye contact:** Flush eyes immediately with large amount of flowing cold water for 15 – 20 minutes, until no evidence of chemical remains. If irritation persists, get medical help.

**Skin contact:** Remove all contaminated clothing and shoes. Gently wipe off residual chemical and wash skin thoroughly with water and non-abrasive soap. If irritation persists, get medical help.

**Inhalation:** Remove the affected victim from exposure to an area with fresh air. If breathing has stopped, administer artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If irritation persists, get medical help.

**Ingestion:** If exposed or concerned, rinse mouth thoroughly with large amount of water and get medical help.

**Most important symptoms/effects, acute and delayed:** No information available. Symptoms of exposure to the product include mild skin irritation and eye damage.

**Notes to physician:** Use proparacaine, hydrochloride to assist eye irrigation.

#### 5. FIRE FIGHTING MEASURES

**Suitable (and unsuitable) extinguishing media:**

Use carbon dioxide, dry chemical for small fires and alcohol resistant foam or water fog for large fires. Do not use water jets.

**Specific hazards arising from the chemical including thermal decomposition products:** Fires involving the product may produce irritating or poisonous vapours, mists, or other products of combustion. Closed containers may explode from vapour expansion in high heat.

**Special protective equipment and precautions for firefighters:** Firefighters must wear emergency equipment including positive pressure self-contained breathing apparatus with a full-face mask. Remove unaffected containers from fire area if possible.

**Additional provisions:** Act in accordance with the site's Internal Emergency Plan and the Workplace Specific Procedures for actions to be taken after an accident or other emergencies.

#### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment, and emergency procedures:**

Ventilate the area of the spill or leak, especially when in confined areas. Do not touch or walk through spilled material as slippery when spilt. Contain spills if it can be done without risk and clean-up immediately.

Wear appropriate protective clothing recommended in Section 8 of the SDS.

**Environmental Precautions:**

Prevent spillage or further leakage if safe to do so.

Do not allow the spilt product to enter water courses and drains. Do not allow the spilt product to spread to other areas - keep the spilt material contained and isolated. Report spills and releases as required to appropriate authorities if the spilt product has caused environmental pollution (sewers, water ways, soil).

**Methods for cleaning up:**

**For small spills,** soak up with damp earth or sand, or other non-combustible absorbent material. Place into a labelled waste container subsequent reclamation or disposal. Keep the wash water out of drains, sewers, and waterways.

**For large spills,** contain the spillage with absorbent material (non-combustible for flammable products). Sweep up with absorbent material, contain and collect spilt product in suitable containers for proper disposal. Keep the wash water out of drains, sewers, and waterways.

**Reference to other sections:**

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

#### 7. HANDLING AND STORAGE REQUIREMENTS

**Precautions for safe handling**

Always provide good ventilation in the work area. Prevent contact with eyes, skin, and clothing. Wear protective clothing and equipment during handling as described in Section 8 of the SDS.

Do not eat or drink during use. Wash the hands and affected area thoroughly with water and soap after handling. Keep containers closed when not in use. Do not permit smoking in use or storage areas. Locate emergency showers and eye-rinsing facility near the work/handling area. Maintain good normal industrial hygiene and housekeeping practices in areas where the product is used/handled.

**Conditions for safe storage, including any incompatibilities**

Always store locked up and keep containers tightly closed when not in use. Store in a cool, dry, and well-ventilated place, out of direct sunlight. Check storage containers regularly for leaks and protect containers from physical damage. Store in the original container, avoid cross contamination with other agricultural products. Keep out of reach of children, uninformed persons, and animals. Do not contaminate water, food, or feed by storage or disposal.

It is recommended to have appropriate spill control kits equipped with absorbent material in close proximity to storage areas (see Section 6).

**Specific end use(s)**

Use as directed. Use original container.

**Appropriate engineering controls:**

Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**PERSONAL PROTECTIVE EQUIPMENT:**

**Respiratory protection:** Respiratory protection selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Use a properly fitted and well-maintained particulate filter respirator, complying with an approved standard. Respirator selection and use should be based on contaminant type, form, and concentration. For emergency conditions, use an approved positive-pressure self-contained breathing apparatus.

**Skin and Hand Protection:** Select skin and hand protection based on the task being performed and the risks involved with the task. The gloves should be replaced immediately in case of damage or signs of wear. The personal protective clothing must be properly fitted and well maintained.

**Eye/Face Protection:** Select safety eye/face protection based on the task being performed and the risks involved with the task. Wear tightly fitted and well-maintained safety eyewear compliant with an approved standard.

**Hygiene Measures:** Wash the hands and face before breaks, eating, smoking, or using the lavatory and at the end of the shift/working period. Eye wash fountains and safety showers should be available and easily accessible. Wash contaminated clothing before reuse.

**8. EXPOSURE CONTROL / PERSONAL PROTECTION**

**National Occupational Exposure Limits – Restricted limits for hazardous chemical agents.**

Component	Type	Control Parameter	Update	Basis
Not applicable	OEL-eight-hour TWA	N/A	2021	South African RELs*
	OEL-STEL/C	N/A	2021	South African RELs*

\*REL: Recommended Exposure Limit.  
 OEL-eight-hour TWA: Occupational Exposure Limit- Time Weighted Average. Calculated over an eight-hour working day, for a five-day working week.  
 OEL-STEL/C: Occupational Exposure Limit – short Term Exposure Limit /Ceiling Limit. Peak airborne concentration determined over the shortest analytically practicable period of time, which does not exceed 15 minutes.

**National Biological Exposure Indices (BEIs) for hazardous chemical agents**

Component	Sample Matrix	Sample Time	Value
Not applicable	N/A	N/A	N/A

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**Appearance/physical state:** Suspension liquid.  
**Odour:** Pungent odour.  
**Colour:** Blue.  
**Boiling Point:** >100°C.  
**Vapour Pressure (mm Hg):** Not applicable.  
**Evaporation Rate:** Not applicable.  
**Relative Vapour Density:** Not applicable.  
**Partition coefficient n-octanol/water:** Not applicable.  
**Solubility in water:** Soluble in water.  
**Decomposition temperature:** Not applicable.  
**Melting point/freezing point:** Not applicable.  
**pH:** 9.32 @ 20.9°C  
**Density/relative density(g/cm3):** 1.16  
**Flammability:** Not flammable.  
**Flash Point:** Not applicable.  
**Flammable limits-LEL:** Not applicable.  
**Upper/Lower flammability limit:** Not applicable.  
**Auto-ignition temperature:** Not applicable.  
**Viscosity:** Not applicable.

**10. STABILITY AND REACTIVITY**

**Reactivity:** The product is stable under normal ambient conditions.

**Chemical Stability:** This product is stable for 2 years at ambient temperature and pressure, under normal storage and handling conditions. Avoid storage under extreme temperatures and conditions. Store below 50°C, preferably below 30°C, and not for prolonged periods in direct sunlight.

**Possibility of Hazardous Reactions:** None known under conditions of normal use.

**Conditions to Avoid:** Avoid extreme temperatures (>50°C). Keep away from heat and ignition sources.

**Incompatible Materials:** Incompatible with: Avoid strong oxidizing agents and acids.

**Hazardous Decomposition Products:** Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. TOXICOLOGICAL INFORMATION

**ACUTE TOXICITY: Calculated.**

**Acute Toxicity Oral LD<sub>50</sub>:** >2800 mg/kg.

**Acute Toxicity Dermal:** Not Classified.

**Acute Toxicity Inhalation LC<sub>50</sub>:** 3.2 mg/L.

**Skin Corrosion/Irritation:** Causes mild skin irritation.

**Eye Damage/Irritation:** Causes serious eye damage.

**Skin Sensitization:** Not classified.

**Respiratory Sensitization:** Not classified.

**Germ cell mutagenicity:** Not classified.

**Carcinogenicity:** Not classified.

**Reproductive toxicity:** Not classified.

**Specific target organ toxicity – single exposure:** Not classified.

**Specific target organ toxicity – repeated exposure:** Not classified.

**Aspiration hazard:** Not classified.

**Symptoms related to the physical, chemical, and toxicological characteristics.**

No information available.

## 12. ECOLOGICAL INFORMATION

**ECOTOXICITY DATA:** Copper hydroxide

**Birds:** Bobwhite quail 223 mg Cu/kg

Acute oral LD<sub>50</sub> Japanese quail 556 mg Cu/kg

Dietary LC<sub>50</sub> (8d) Bobwhite quail 883 mg Cu/kg

Mallard ducks 863 mg Cu/kg

**Fish:** Rainbow trout 10 mg Cu/l

LC<sub>50</sub> (96 h)

**Daphnia:** - 0.0438 mg/l

EC<sub>50</sub> (48 h)

**Algae:** *Selenastrum* 0.0223 mg/l

*E. capricornutum*

**Bees:** (oral) 49 µg/bee

(LD<sub>50</sub>, µg/bee) (contact) 42.8 µg/bee

**Worms:** *Eisenia fetida* >677 mg/kg soil.

LC<sub>50</sub> (14 d)

## ENVIRONMENTAL EFFECTS:

**Persistence and degradability:** Copper is a chemical element and therefore cannot be degraded or transformed into related metabolites. In soil it is mainly bound, to a wide range of soil substances, therefore limiting the amount of free copper ion in soil solution and so its bioavailability. The amount of free copper ion is primarily controlled by pH and the amount of dissolved organic carbon in the soil. In acid soils, copper ions will be at greater concentration than at neutral or alkaline pH.

**Bio-accumulative Potential:** Not available.

**Mobility in soil:** Copper is not expected to leach to the saturated zone.

**Other adverse effects:** None known.

## 13. DISPOSAL CONSIDERATIONS

**Waste handling and disposal:** Dispose product related waste in accordance with all local regulations and prevent the contamination of water, food, or feed by storage or disposal of the waste. The product container/bags may be taken to a registered waste disposal site or incineration plant.

**General container handling:** Empty all pesticides from the container by placing it upside down over the spray tank and holding it there for at least 30 seconds. Puncture the rinsed container to render it useless and send to a recycler.

## 14. TRANSPORT INFORMATION

	Land Transport (ADR/RID)	Inland Waterways (AND/ADNR)	Sea Transport (IMDG)	Air Transport (ICAO-TI / IATA-DGR)

## 15. REGULATORY INFORMATION

## Safety, health and environmental regulations/legislation for the mixture.

### South Africa

Regulations for Hazardous Chemical Agents – 2021 – SA Occupational Health and Safety Act. - Handling, labelling and Safety Data Sheets for hazardous and GHS classified substances and mixtures. Occupational Exposure Limits. Hazardous Substances Act, 1973 (Act No.15 of 1973) - Requirements on the prohibition and control of the importation, manufacture, sale, use, operation, application, modification, disposal or dumping of hazardous substances. Occupational Health and Safety Act No. 85 of 1993.- Occupational Health and Safety Standards for employers and users working with and around hazardous chemical substances. National Road Traffic Act, 1996 (ACT NO. 93 of 1996). - The identification and classification of dangerous goods for transport by road and rail modes.

### Botswana

Pesticides and Toxic Substances Regulations. 1994 (2006) - Control and management of pesticides and other toxic substances. Environmental and Pollution Control Act. 1990 - Hazardous waste disposal, hazardous substances, pesticides, and effluent wastewater/discharge.

### Namibia

Labour Act 11 of 2007 - Hazardous substances classification, labelling, Chemical Safety Data Sheets and Occupational Exposure Limits. Notification of the use of carcinogens and other controlled substances. Regulations relating to the Health and Safety of Employees at Work Government Notice 156 of 1997. Labour Act 11 of 2007 schedule, item 2(2). - Occupational Health and Safety Standards for employers and users working with and around hazardous chemical substances.

## 16. OTHER INFORMATION

**Packaging:** Packed in 5, 10, 20, 25, 210 L plastic containers or plastic bottles and labelled according to South African regulations and guidelines.

### Relevant classification and H-Statements:

Skin Irritation – Category 3

H316: Causes mild skin irritation.

Serious Eye Damage – Category 1

H318: Causes serious eye damage.

Acute Toxicity – Inhalation – Category 4

H332: Harmful if inhaled.

Hazardous to the Aquatic Environment – Short-Term (Acute) Hazard – Category 1

H400: Very toxic to aquatic life.

Hazardous to the Aquatic Environment – Long-Term (Chronic) Hazard – Category 1

H410: Very toxic to aquatic life with long-lasting effects.

## Notice to Reader

The information contained in this Safety Data Sheet relate only to the specific product and do not relate to the use of the product in combination with any other product or process. Information in the SDS is supplied to the best of **ROLFES AGRI (PTY) LTD's** knowledge and are believed to be current and correct as of the date on this SDS. All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

The SDS only provides information applicable to the health, safety and environmental hazards of this product at the date of issue in order to facilitate the safe use, handling, storage and transport of this product and does not replace any product information or product specifications.

It is not possible for **ROLFES AGRI (PTY) LTD** to anticipate or control all conditions under which this product, this product may be used, handled, stored or transported. The obligation of the user, receiver, handler or transporter remains to review the content of the SDS prior to potentially exposing persons/employees to the product and to consider any risks that may associated with the hazards of the product during use, handlings, storage or transportation. Appropriate health, safety and environmental protection risk mitigating measures must be in place and such information must be communicated to all persons that might be involved with and exposed to this product.

## Disclaimer:

ROLFES AGRI Proprietary Limited provides the information contained herein in good faith, however, the information and recommendations are presented without warrant, representation or license of any kind, expressed or implied, with respect to the accuracy, correctness or its comprehensiveness, or assume any liability for incomplete information contained herein or any advice given. The seller, supplier and manufacturer of the material and their respective affiliates (collectively, the "supplier") disclaim all liability for reliance on such information and recommendations.

This document is intended only as a guide to the appropriate precautionary handling and use of the product by a properly trained person. Individuals receiving the information must exercise their independent judgement in determining its appropriateness for a particular purpose. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale. Accordingly, Rolfes Agri Proprietary Limited will not be responsible for damages resulting from use or reliance upon this information.

**END OF SAFETY DATA SHEET**
