WARNINGS:**• CEASE APPLICATION 7 DAYS PRIOR TO HARVEST ON EDIBLE CROPS.**

- Store away from food and feed.
- Keep out of reach of children, uninformed persons and animals.
- This product may be harmful to children and fatal to domestic animals if ingested. Children and dogs may be attracted to the product and their packaging. Keep children and pets out of treated areas from the start of application until the applied product is no longer visible.

Although this remedy has been extensively tested under a large variety of conditions, the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions; quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned, as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment, or harm to man or animal or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS:

- If medical advice is needed, have product container or label at hand.
- Keep out of reach of children.
- Read carefully and follow all instructions.
- Obtain, read and follow all safety instructions before use.
- Avoid release to the environment.
- Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
- Collect spillage.
- If exposed or concerned, get medical advice.
- Store locked up.
- Empty all pesticides from the container by placing it upside down over the spray tank and holding it there for at least 30 seconds. Puncture the rinsed container to render it useless and send to a recycler.

RESISTANCE WARNING:

For resistance management, **SPEEDY RB** is a group code 1A insecticide. Any insect population may contain individuals naturally resistant to **SPEEDY RB** and other group code 1A insecticides. The resistant individuals can eventually dominate the insect population if these insecticides are used repeatedly. These resistant insects may not be controlled by **SPEEDY RB** or any other group code 1A insecticide.

To delay insecticide resistance:

- Avoid exclusive repeated use of insecticides from the same insecticide group code. Alternate or tank mix with registered products from different insecticide group codes.
- Integrate other control methods (chemical, cultural, biological) into insect programs.

For specific information on resistance management contact the registration holder of this product.

DIRECTIONS FOR USE: USE ONLY AS INDICATED.

- Snails and slugs are mainly active at night particularly when conditions are warm and damp.
- Scatter **SPEEDY RB** bait pellets on the soil in and around beds with young succulent growth where snails occur.
- Also scatter pellets under and near hiding places such as dense-growing plants, plants with large leaves, rockeries and stone walls.
- **SPEEDY RB** pellets are firm, do not disintegrate rapidly and stay effective for a reasonable period.
