

## SAFETY DATA SHEET

### 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** SPEEDY RB

**Other identifier:** SPEEDY RB

**Recommended use:** Molluscicide

**Restrictions on use:** Agriculture

**Supplier** Rolfes Agri (Pty) Ltd

288 Mundt Street

Waltloo

Pretoria, South Africa

**Telephone:** +27(0)12 803 0145

**E-mail Address:** [info@rolfesagri.co.za](mailto:info@rolfesagri.co.za)

**Emergency Phone Numbers:**

**Office hour poisoning helpline**

Rolfes Agri (Pty) Ltd +27 (12) 803 0145

**Spill Response and Transport Incidents**

Spill Tech, 086 100 0366, [www.spilltech.co.za](http://www.spilltech.co.za)

Oil and chemical pollution control 083 253 6618

### 2. HAZARDS IDENTIFICATION

GHS classification and labelling of chemicals and the Regulations for Hazardous Chemical Agents - 2021.

Hazard class	Hazard category	H-statement
<b>Health Hazards</b>		
Carcinogenicity	Category 2	H351
Reproductive Toxicity	Category 2	H361
<b>Environmental Hazards</b>		
Aquatic Acute	Category 1	H400

**The most important adverse effects:**

**Physiochemical effects:** None known.

**Human health effects:**

Suspected of causing cancer. (Carc. 2)

May damage fertility or the unborn child. (Repr. 2)

**Pictograms:**

**Signal word:** WARNING

**Hazard statements:**

H351: Suspected of causing cancer.

H361: Suspected of damaging fertility or the unborn child.

**Precautionary statements:**

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P103: Read carefully and follow all instructions.

P203: Obtain, read and follow all safety instructions before use.

P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

P291: Collect spillage.

P318: IF exposed or concerned, get medical advice.

P405: Store locked up.

P501: Empty all pesticides from the container by placing it upside down over the spray tank and holding it there for at least 30 seconds. Puncture the rinsed container to render it useless and send to a recycler.

**Special labelling of certain mixtures:**

None known.

**Other hazards:**

None known.

**Toxicity:**

Classification according to GHS: Classified.

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

**Ingredients with Hazard Concerns (GHS):** According to UN GHS criteria

Hazardous Component	CAS Number	Conc. (m/m) %	GHS Classification
Metaldehyde	108-62-3	10 - 30%	Flam. Sol. 1, Acute Tox Oral 3., Repr. 2, Aquatic Chron 3.
Carbaryl	63-25-2	>10%	Acute Tox Oral 4., Acute Tox Inhal. 4., Carc. 2. Aquatic Acute 1., Aquatic, Chron 1.

### 4. FIRST AID MEASURES

**General Advice:** The symptoms resulting from direct exposure to the product could appear a while after exposure. If there is persistent discomfort, seek medical attention. Provide this SDS to medical personnel for treatment. Immediately remove contaminated clothing and remove the affected person from the contamination area. Keep the person warm, calm, and covered up. First Aid personnel should pay attention to their own safety.

**Eye contact:** Flush eyes with large amount of flowing cold water for several minutes, until no evidence of chemical remains. If irritation persists, get medical help.

**Skin contact:** Remove all contaminated clothing and shoes. Gently wipe off residual chemical and wash skin thoroughly with water and non-abrasive soap. If irritation persists, get medical help.

**Inhalation:** Remove the affected victim from exposure to an area with fresh air. If breathing has stopped, administer artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If irritation persists, get medical help.

**Ingestion:** If exposed or concerned, rinse mouth thoroughly with large amount of water and get medical help.

**Most important symptoms/effects, acute and delayed:**

No information available.

**Notes to physician:** Treat symptomatically and supportively.

---

## 5. FIRE FIGHTING MEASURES

**Suitable (and unsuitable) extinguishing media:**

Use carbon dioxide, dry chemical for small fires and alcohol resistant foam or water fog for large fires. Do not use water jets.

**Specific hazards arising from the chemical including thermal decomposition products:** Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

**Special protective equipment and precautions for fire-fighters:** Firefighters must wear emergency equipment including positive pressure self-contained breathing apparatus with a full-face mask. Remove unaffected containers from fire area if possible.

**Additional provisions:** Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

---

## 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment, and emergency procedures:**

Ventilate the area of the spill or leak, especially when in confined areas. Do not touch or walk through spilled material as slippery when spilt. Contain spills if it can be done without risk and clean-up immediately.

Wear appropriate protective clothing recommended in Section 8 of the SDS.

**Environmental Precautions:**

Prevent spillage or further leakage if safe to do so.

Do not allow the spilt product to enter water courses and drains and avoid contact with soil. Do not allow the spilt product to spread to other areas - keep the spilt material

contained and isolated. Report spills and releases as required to appropriate authorities if the spilt product has caused environmental pollution (sewers, water ways, soil, or air).

**Methods for cleaning up:**

**For small spills,** sweep up with damp earth or sand or other suitable absorbent, such as sawdust, taking care not to raise a dust cloud. Place the material into a clean, dry container and cover for subsequent disposal. All contaminated cleaning materials should be placed in closeable receptacles. In situations where product comes in contact with water, contain contaminated water for later disposal. Do not flush spilled material into drains. Keep spectators away and upwind.

**For large spills,** DO NOT wash away into sewer. Sweep spilled substance into sealable containers; if appropriate, moisten first to prevent dusting. Carefully collect remainder, then remove to safe place (extra personal protection: P2 filter respirator for harmful particles).

**Reference to other sections:**

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

---

## 7. HANDLING AND STORAGE REQUIREMENTS

**Precautions for safe handling**

Always provide good ventilation in the work area. Prevent contact with eyes, skin, and clothing. Wear protective clothing and equipment during handling as described in Section 8 of the SDS.

Do not eat or drink during use. Wash the hands and face thoroughly with water and soap after handling. Keep containers/foil bags closed when not in use. Do not permit smoking in use or storage areas. Locate emergency showers and eye-rinsing facility near the work/handling area. Maintain good normal industrial hygiene and housekeeping practices in areas where the product is used/handled.

**Conditions for safe storage, including any incompatibilities**

Always store locked up and keep containers/foil bags tightly closed when not in use. Store in a cool, dry, and well-ventilated place, out of direct sunlight. Check storage containers/foil bags regularly for leaks and protect it from physical damage. Store in the original container/foil bags, avoid cross contamination with other agricultural products. Keep out of reach of children, uninformed persons, and animals. Do not contaminate water, food, or feed by storage or disposal.

It is recommended to have appropriate spill control kits equipped with absorbent material in close proximity to storage areas (see Section 6).

**Specific end use(s)**

Use as directed. Use original container or foil bags.

---

## 8. EXPOSURE CONTROL / PERSONAL PROTECTION

### 8.1 Control parameters

**Occupational exposure limits (OEL):** None  
**Biological exposure indices (BEI):** None  
**Additional exposure limits under the conditions of use:** None

### 8.2 Exposure controls

Information concerning exposure control is provided in the Exposure scenarios elaborated by calcium carbonate.

**Appropriate engineering controls:**

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**PERSONAL PROTECTIVE EQUIPMENT:**

**Respiratory protection:** Respiratory protection selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Use a properly fitted and well-maintained particulate filter respirator, complying with an approved standard. Respirator selection and use should be based on contaminant type, form, and concentration. For emergency conditions, use an approved positive-pressure self-contained breathing apparatus.

**Skin and Hand Protection:** Select skin and hand protection based on the task being performed and the risks involved with the task. The gloves should be replaced immediately in case of damage or signs of wear. The personal protective clothing must be properly fitted and well maintained.

**Eye/Face Protection:** Select safety eye/face protection based on the task being performed and the risks involved with the task. Wear tightly fitted and well-maintained safety eyewear compliant with an approved standard.

**Hygiene Measures:** Wash the hands and face before breaks, eating, smoking, or using the lavatory and at the end of the shift/working period. Eye wash fountains and safety showers should be available and easily accessible. Wash contaminated clothing before reuse.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance/physical state:** Solid.

**Odour:** Slight None.

**Colour:** Blue.

**Boiling Point:** >97.8 °C

**Vapour Pressure (mm Hg):** Not available.

**Evaporation Rate:** Not available.

**Relative Vapour Density:** Not available.

**Partition coefficient n-octanol/water:** Not available.

**Solubility in water:** Insoluble.

**Decomposition temperature:** Not available.

**Melting point/freezing point:** Not available.

**pH:** 5.5 – 7 (23°C)

**Density/relative density(g/cm<sup>3</sup>):** Not available.

**Flammability:** Not flammable.

**Flash Point:** >100 °C.

**Flammable limits-LEL:** Not applicable.

**Upper/Lower flammability limit:** Not applicable.

**Auto-ignition temperature:** Not applicable.

**Viscosity:** Not available.

---

## 10. STABILITY AND REACTIVITY

**Reactivity:** No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.

**Chemical Stability:** This product is stable for 2 years at ambient temperature and pressure, under normal storage and handling conditions. Avoid storage under extreme temperatures and conditions. Store below 50°C, preferably below 30°C, and not for prolonged periods in direct sunlight.

**Possibility of Hazardous Reactions:** Under the specified conditions, hazardous reactions that lead excessive temperatures or pressure are not expected.

**Conditions to Avoid:** No information available.

**Incompatible Materials:** No information available.

**Hazardous Decomposition Products:** Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

## 11. TOXICOLOGICAL INFORMATION

**ACUTE TOXICITY:** Calculated.

**Acute Toxicity Oral:** Not classified.

**Acute Toxicity Dermal:** Not classified.

**Acute Toxicity Inhalation:** Not classified.

**Skin Corrosion/Irritation/:** Not classified.

**Eye Damage/Irritation:** Not classified.

**Skin Sensitization:** Not classified.

**Respiratory Sensitization:** Not classified.

**Germ cell mutagenicity:** Not classified.

**Carcinogenicity:** Suspected of causing cancer.

**Reproductive toxicity:** Suspected of damaging fertility or the unborn child.

**Specific target organ toxicity – single exposure:** Not classified.

**Specific target organ toxicity – repeated exposure:** Not classified.

**Aspiration hazard:** Not classified.

**Symptoms related to the physical, chemical, and toxicological characteristics.**

No information available.

## 12. ECOLOGICAL INFORMATION

**ECOTOXICITY DATA:** Very toxic to aquatic life.

### Carbaryl

LC50 (Rainbow trout (*Oncorhynchus mykiss*)) 1.3 mg/l: 96 h, EC50 (*Daphnia magna* (Water flea)) 6 µg/l: 48 h  
*Scenedesmus quadricauda* (Green algae) > 0.60 mg/l: 48 h  
 Exposure time: 72 h 1 µg/bee. 1.54 - 26.5 µg/bee  
 0.5 µg/cm<sup>2</sup> - 8.3 µg/cm<sup>2</sup>. Mallard ducks: > 5 000 mg/kg

### Metaldehyde

LC50 (Rainbow trout (*Oncorhynchus mykiss*)) 75 mg/l: 96 h, EC50 (*Daphnia magna* (Water flea)) 90 mg/l: 48 h  
*Scenedesmus quadricauda* (Green algae) > 200 mg/l; Exposure time: 72 h, > 87 µg/bee. > 113 µg/bee > 1,000 ppm, Bobtail quail: 170 mg/kg, Bobwhite quail (*Colinus virginianus*): 3460 ppm, The 3% pelleted bait is reported to be toxic to wildlife. When used as directed, bait agents with 6% active ingredient are not toxic to bees. Bait pellets containing metaldehyde are attractive to dogs. Pets should be confined during application, and kept away from application and storage sites.

### ENVIRONMENTAL EFFECTS:

**Persistence and degradability: Carbaryl:** Readily biodegradable. KOC: 624. Metaldehyde: Readily biodegradable. KOC: 60.4.

**Bio-accumulative Potential:** Not expected.

**Mobility in soil:** Slightly mobile in soils.

**Other adverse effects:** No information available.

## 13. DISPOSAL CONSIDERATIONS

**Waste handling and disposal:** Dispose product related waste in accordance with all local regulations and prevent the contamination of water, food, or feed by storage or disposal of the waste. The product container/bags may be taken to a registered waste disposal site or incineration plant.

**General container handling:** Empty all pesticides from the container by placing it upside down over the spray tank and holding it there for at least 30 seconds. Puncture the rinsed container to render it useless and send to a recycler.

## 14. TRANSPORT INFORMATION

	Land Transport (ADR/RID)	Inland Waterways (AND/ADNR)	Sea Transport (IMDG)	Air Transport (ICAO-TI / IATA-DGR)

## 15. REGULATORY INFORMATION

### Safety, health and environmental regulations/legislation for the mixture.

#### South Africa

Regulations for Hazardous Chemical Agents – 2021 – SA Occupational Health and Safety Act. - Handling, labelling and Safety Data Sheets for hazardous and GHS classified substances and mixtures. Occupational Exposure Limits. Hazardous Substances Act, 1973 (Act No.15 of 1973) - Requirements on the prohibition and control of the importation, manufacture, sale, use, operation, application, modification, disposal or dumping of hazardous substances. Occupational Health and Safety Act No. 85 of 1993.- Occupational Health and Safety Standards for employers and users working with and around hazardous chemical substances. National Road Traffic Act, 1996 (ACT NO. 93 of 1996). - The identification and classification of dangerous goods for transport by road and rail modes.

#### Botswana

Pesticides and Toxic Substances Regulations. 1994 (2006) - Control and management of pesticides and other toxic substances. Environmental and Pollution Control Act. 1990 - Hazardous waste disposal, hazardous substances, pesticides, and effluent wastewater/discharge.

#### Namibia

Labour Act 11 of 2007 - Hazardous substances classification, labelling, Chemical Safety Data Sheets and Occupational Exposure Limits. Notification of the use of carcinogens and other controlled substances. Regulations relating to the Health and Safety of Employees at Work Government Notice 156 of 1997. Labour Act 11 of 2007 schedule, item 2(2). - Occupational Health and Safety Standards for employers and users working with and around hazardous chemical substances.

## 16. OTHER INFORMATION

**Packaging:** Packed in 1 and 5 kg (foil bags) 10 and 25 kg (HDPE/plastic or foil bags) and labelled according to South African regulations and guidelines.

### Relevant classification and H-Statements:

Carcinogenicity – Category 2  
 H351: Suspected of causing cancer.

Reproductive Toxicity – Category 2

H361: Suspected of damaging fertility or the unborn child.

Hazardous to the Aquatic Environment – Short Term (Acute) – Category 1

H400: Very toxic to aquatic life.

#### Notice to Reader

The information contained in this Safety Data Sheet relate only to the specific product and do not relate to the use of the product in combination with any other product or process. Information in the SDS is supplied to the best of **ROLFES AGRI (PTY) LTD's** knowledge and are believed to be current and correct as of the date on this SDS. All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

The SDS only provides information applicable to the health, safety and environmental hazards of this product at the date of issue in order to facilitate the safe use, handling, storage and transport of this product and does not replace any product information or product specifications.

It is not possible for **ROLFES AGRI (PTY) LTD** to anticipate or control all conditions under which this product, this product may be used, handled, stored or transported. The obligation of the user, receiver, handler or transporter remains to review the content of the SDS prior to potentially exposing persons/employees to the product and to consider any risks that may associated with the hazards of the product during use, handlings, storage or transportation. Appropriate health, safety and environmental protection risk mitigating measures must be in place and such information must be communicated to all persons that might be involved with and exposed to this product.

#### Disclaimer:

**ROLFES AGRI Proprietary Limited** provides the information contained herein in good faith, however, the information and recommendations are presented without warrant, representation or license of any kind, expressed or implied, with respect to the accuracy, correctness or its comprehensiveness, or assume any liability for incomplete information contained herein or any advice given. The seller, supplier and manufacturer of the material and their respective affiliates (collectively, the "supplier") disclaim all liability for reliance on such information and recommendations.

This document is intended only as a guide to the appropriate precautionary handling and use of the product by a properly trained person. Individuals receiving the information must exercise their independent judgement in determining its appropriateness for a particular purpose. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale. Accordingly, Rolfes Agri Proprietary Limited will not be responsible for damages resulting from use or reliance upon this information.

#### END OF SAFETY DATA SHEET
