WARNINGS:
CEASE APPLICATION 7 DAYS PRIOR TO HARVEST ON EDIBLE CROPS.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

IMPORTANT:

This product may be harmful to children and fatal to domestic animals if ingested. Children and dogs may be attracted to metaldehyde products and their packaging. Keep children and pets out of treated areas from the start of application until the applied product is no longer visible.

PRECAUTIONS

- If medical advice is needed, have container or label at hand.
- Keep out of reach of children.
- Read carefully and follow all instructions.
- Obtain, read, and follow all safety instructions before use.
- Wear protective gloves, clothing, eye and face protection.
- If exposed or concerned, get medical advice.
- Store locked up
- Empty all pesticides from the container by placing it upside down over the spray tank and holding it there for at least 30 seconds. Puncture the rinsed container to render it useless and send to a recycler. Do not use empty containers for any other purpose.

RELEVANT SUBSTANCES:

This product contains Metaldehyde 15g/kg.

DIRECTIONS FOR USE: USE ONLY AS DIRECTED

- Snails and slugs are mainly active at night, particularly when conditions are warm and damp.
- Scatter **ESCARGO 15 RB** pellets on the soil in and around beds with young succulent growth where snails occur.
- Also scatter **ESCARGO 15 RB** pellets under and near hiding places such as dense plant growth and plants with large leaves.
- **ESCARGO 15 RB** pellets are firm, do not disintegrate rapidly and stay effective for a reasonable period.
- Apply at 10 - 20 kg per hectare (10 000 m²) for various crops.
