

Only-K

Reg. No. N-F 1960 Act No. 36 of 1947

Reg. No. B5513 Act No. 36 of 1947

FERTILIZER GROUP 1

**READ LABEL BEFORE USE
KEEP OUT OF REACH OF CHILDREN AND ANIMALS**

ONLY - K is a nitrogen free, water soluble potassium fertilizer for use as a foliar feed or for fertigation of vegetable, horticultural, field, ornamental and floricultural crops to correct or maintain potassium levels within the plant or growing medium.

Not classified as hazardous according to GHS

Potassium (K) 150 g/kg 200 g/ℓ

Shake well before use • Store at room temperature
Keep out of direct sunlight • Keep container closed when not in use

PRECAUTIONS:

- If medical advice is needed, have product container or label at hand.
- Keep out of reach of children.
- Read carefully and follow all instructions.
- **ONLY-K** is recommended for use on all crops during plant growth periods that require relatively high potassium levels such as during flowering and fruit formation when additional nitrogen will be detrimental to the crop quality.
- **ONLY-K** is completely water-soluble and is chlorine free.
- **ONLY-K** has a pH of 5 and is compatible with most agrochemicals. **It is however advisable to do a miscibility test prior to mixing with other chemicals.**

- **ONLY-K** should preferably be applied in the early morning or late afternoon. **Do not apply to crops that are undergoing a period of moisture or heat stress.**

The rate of application is dependent on the soil fertility and reaction required. The lower rates should be used for maintenance while the higher rates will correct nutritional deficiencies.

Consult with your chemical distributor, consultant or manufacturer should crop specific programs or any other information be required around the use of **ONLY-K**.

DIRECTIONS FOR USE: USE ONLY AS DIRECTED

APPLICATION	RATE PER HECTARE	RATE PER 100 € WATER	RECOMMENDATIONS
Foliar Feed	2 – 5 ℓ	0,5 – 1 ℓ	Start application as soon as potassium levels become limiting. Apply as a full cover spray. Repeat at 1 – 2 week intervals as required.
Aerial application	2 – 5 ℓ	1 – 2 ℓ / 30 ℓ water	Start application as soon as potassium levels become limiting. Repeat at 1 – 2 week intervals as required.
