Rolfes Agri (Pty) Ltd VAT No: 4770176081 (Reg. No. 1998/013411/07)

SAFETY DATA SHEET	P102: Keep out of reach of children.
	P103: Read carefully and follow all instructions. P264: Wash hands and affected area thoroughly after
1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION	handling.
IDENTIFICATION	P280: Wear protective gloves.
Product Name: QUATRO S	P302 + P352: IF ON SKIN: Wash with plenty of water.
Other identifier: QUATRO S	P332 + P317: If skin irritation occurs: Get medical help
Recommended use: Fertilizer	P362 + P364: Take off contaminated clothing and wash it
Restrictions on use: Agriculture	before reuse.
Supplier Rolfes Agri (Pty) Ltd	P501: Empty all pesticides from the container by placing it
288 Mundt Street	upside down over the spray tank and holding it there for at
Waltloo	least 30 seconds. Puncture the rinsed container to render
Pretoria, South Africa	it useless and send to a recycler.

an area with fresh air. If breathing has stopped, administer artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Ingestion: If exposed or concerned, rinse mouth thoroughly with water and get medical advice. Most important symptoms/effects, acute and delayed: No information available. Notes to physician: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours. Treat symptomatically. 5. FIRE FIGHTING MEASURES Suitable (and unsuitable) extinguishing media: Use carbon dioxide, dry chemical for small fires and alcohol resistant foam or water fog for large fires. Do not use water jets. Specific hazards arising from the chemical including thermal decomposition products: Fires involving the product may produce irritating or poisonous smoke, or other products of combustion. Special protective equipment and precautions for fire-fighters: Firefighters must wear emergency equipment including positive pressure self-contained breathing apparatus with a full-face mask. Remove unaffected containers from fire area if possible. Additional provisions: Act in accordance with the site's Internal Emergency Plan and the Workplace Specific Procedures for actions to be taken after an accident or other emergencies. 6. ACCIDENTAL RELEASE MEASURES Personal precautions, protective equipment, and emergency procedures: Ventilate the area of the spill or leak, especially when in confined areas. Do not touch or walk through spilled material as slippery when spilt. Contain spills if it can be done without risk and clean-up immediately. Wear appropriate protective clothing recommended in Section 8 of the SDS. Environmental Precautions: Prevent spillage or further leakage if safe to do so. Do not allow the spilt product to enter water courses and	For large s material (nor up with ab product in su wash water of Reference to See Section protective ed See Section <b>7. ## Notice to Reader

The information contained in this Safety Data Sheet relate only to the specific product and do not relate to the use of the product in combination with any other product or process. Information in the SDS is supplied to the best of **ROLFES AGRI (PTY) LTD's** knowledge and are believed to be current and correct as of the date on this SDS. All reasonable efforts were exercised to compile this SDS in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

The SDS only provides information applicable to the health, safety and environmental hazards of this product at the date of issue in order to facilitate the safe use, handling, storage and transport of this product and does not replace any product information or product specifications.

It is not possible for ROLFES AGRI (PTY) LTD to anticipate or control all conditions under which this product, this product may be used, handled, stored or transported. The obligation of the user, receiver, handler or transporter remains to review the content of the SDS prior to potentially exposing persons/employees to the product and to consider any risks that may associated with the hazards of the product during use, handlings, storage or transportation. Appropriate health, safety and environmental protection risk mitigating measures must be in place and such information must be communicated to all persons that might be involved with and exposed to this product.

Disclaimer:

ROLFES AGRI Proprietary Limited provides the information contained herein in good faith, however, the information and recommendations are presented without warrant, representation or license of any kind, expressed or implied, with respect to the accuracy, correctness or its comprehensiveness, or assume any liability for incomplete information contained herein or any advice given. The seller, supplier and manufacturer of the material and their respective affiliates (collectively, the "supplier") disclaim all liability for reliance on such information and recommendations.

This document is intended only as a guide to the appropriate precautionary handling and use of the product by a properly trained person. Individuals receiving the information must exercise their independent judgement in determining its appropriateness for a particular purpose. When this product is sold, risk passes to the purchaser in accordance with the specific terms and conditions of sale. Accordingly, Rolfes Agri Proprietary Limited will not be responsible for damages resulting from use or reliance upon this information.
