

SOIL
CONDITIONER

RDC 20™

RDC 20™ binds fine soil particles into larger heavier particles, which are less prone to cause dust.

Blended emulsified co-polymers and ionic modifiers.

DIRECTIONS FOR USE: USE ONLY AS INDICATED.

DOSAGES:

Establishment: To treat 1000 m² in a month a 30% concentration dosage must be used e.g. 300 l RDC 20™ per 1000 l water. An initial application of 20% is required - 200 l RDC 20™ per 1000 l water initially. After this 1% - 5% concentration dosages can be used to reach the total for the month as required by conditions of the dirt/gravel road.

Maintenance: 1- 5 % concentration dosage on volume of water dependant on traffic on road.

UN NO.: NOT REGULATED
