Keep out of direct sunlight • Keep container closed when not in use**

LIFT HERE

**TENDERBUFF** contains a buffering system that when applied correctly will buffer the majority of spray solutions between a pH of 4,5 – 5,5 depending on water quality.

**TENDERBUFF** helps prevent alkaline hydrolysis.

**WARNINGS:**

1. Observe any warnings that apply to the product or products with which **TENDERBUFF** is to be used.
2. Do **NOT** use **TENDERBUFF** with remedies that require an alkaline environment (pH > 7).

**DISCLAIMER**

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, quality of dilution water, compatibility with other substances not indicated on the label as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animals or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions, which could not have been foreseen in terms of registration. Consult the supplier in the event of any uncertainty.

**PRECAUTIONS**

- If medical advice is needed, have container or label at hand.
- Keep out of reach of children.
- Read carefully and follow all instructions.

**DIRECTIONS FOR USE: Use only as directed.**

Mix **TENDERBUFF** with the spray water before adding any other agricultural remedies.

**TENDERBUFF** is recommended at a rate 50 ml / 100 l water.
